

Battery Charger Series BP300CM – Chassis Mount 150 Watt

- Chassis Mount
- Input, output, case isolated against each other
- SELV
- Inrush current limit
- Back feeding protection diode with DC-OK Alarm in the output
- IU characteristic

Input Voltage		Output Voltage			Type
VAC	min. - max.	Nom. Battery Voltage /VDC	Adjustable by factory min. -max. VDC	ADC	
230	175 – 264	24	24 - 30	5,3	BP384CM
230	175 – 264	48	48 - 60	2,6	BP389CM
230	175 – 264	60	60 - 75	2,1	BP386CM

Construction chassis mount

Connectors plug-in terminals on front panel

Weight app. 1,0kg

Output	Overload	Current limit IU- characteristic
	OVP	Adjusted to 1,25 x U _{nom}
	Sense	Internally
	Function controll	LED on front panel
	Output decoupling diode with DC-OK-alarm	Alarm at U _{out} < 0,8 U _{out} , pot.free relay contacts NOC/NCC
Input	Turn off at U _{in}	Fixed <95% U _{min} >105% U _{max}
